X Further documents are listed in the continuation of Box C X See patent family annex							
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "B" earlier application or patent but published on or "X" document of particular relevance; the claimed invention cannot be							
after the international filing date considered novel or cannot be considered to involve an inventive step							
"L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) when the document is taken alone document is taken alone document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is com with one or more other such documents, such combination being of a person skilled in the art	nbined						
"O" document referring to an oral disclosure, use, "&" document member of the same patent family exhibition or other means							
"P" document published prior to the international filing date but later than the priority date claimed							
Date of the actual completion of the international search Date of mailing of the international search report 1 5 JAN							
8 January 2004	2007						
Name and mailing address of the ISA/AU Authorized officer	2004
